**Augusta Regional Airport Launches New Mobile Website!**

Augusta, Georgia, December 17<sup>th</sup>, 2012 —Augusta Regional Airport (AGS) is proud to announce the Airport’s Mobile Website! The Mobile Website was designed for busy business and leisure travelers alike!

As a way to continue to provide excellent customer service, the Airport partnered with Powerserve and Flight View to provide travelers with a state of the art Mobile Website. The website offers users the ability to view an up-to-date status of arriving or departing flights, current weather conditions, airport amenities, directions and transportation services, and much more!

“We see less use of laptops and an increased use of smart phones, I-pads, tablets, and other mobile devices with our passengers” Said Gary LeTellier, Executive Director. “We wanted to make our website more user friendly for those passengers! With our Mobile Website travelers can access information faster and more efficiently than they would through our normal website.”

Please visit AGS’s Mobile Website by going to [www.flyags.com](http://www.flyags.com) on your mobile device!
